SPEED IS DECEPTIVE ACCORDING TO RECORDING OF CAMERA

Our picture gives a vivid impression of speed and power as seen from the footplate of the new British locomotive, "Princess Royal." The train is approaching Lew Hill on its journey from Euston to Carlisle and is gaining momentum for the ascent to Wharfedale. A remarkable feature is the view of the rotating wheels while the Princess Royal is travelling at a speed of more than 65 miles an hour. The view was made possible by the projection of the camera from the engine cable.

GENEROUS DONOR

Five years ago Mr. W. H. Collins, a London business man, was given one chance in a hundred to recover from internal trouble and it was only through the untiring efforts of a surgeon in the Middlesex Hospital, who performed three major operations on Mr. Collins in 19 days, that he is now alive and in good health. As a tribute to the work of this surgeon, Mr. Collins has donated £125,000 to enable the Middlesex Hospital to establish one of the finest X-ray diagnostic departments in the world.

QUEEN MARY

Her Majesty, Queen Mary, has often heard of a ball in a china shop but had never seen one in such peculiar circumstances until recently. While shopping at Fakenham, Norfolk, Queen Mary and the Princess Royal were examining goods in the china department when a young ball suddenly appeared almost beside Her Majesty. Luckily the animal was removed before any damage resulted and the Royal Party was unimpaired.

ONE CLUB GOLFER

Not only did Miss Gloria Minoprio startle the officials running the English Ladies' Close Golf Championship at Weyward Ho by playing throughout the first and second round with one golf club—a club—but she also appeared in complete masculine apparel set off by a well-creased pair of trousers. Apparently the single club or the outfit proved too big a handicap because Gloria lost out by 5 and 3.

ENFORCING BLUE EAGLE LAWS

Washington.—A two-sided executive order designed to force compliance with the blue eagle provisions of the presidential act was issued by President Roosevelt.

The order called for a fine of \$500 and six months' imprisonment for any person falsely representing himself to be operating under the agreement or displaying the blue eagle insignia while not complying with its provisions.

The president's order, issued under specific authority of the industrial law, also authorized Hugh S. Johnson, the recovery administrator, to prescribe further rules amplifying those laid down by the chief executive.

CARBON DIOXIDE STORAGE

Recent chilled shipments from the British to the British market are of considerable interest to Canadian shippers. Through laboratory research it has been proven that chilled beef could be stored for much longer periods if the atmosphere of the storage chamber was filled with a little carbon dioxide. The experiments showed that a concentration of about 10 per cent carbon dioxide would double the period over which chilled beef could be stored without mould, taint in the fat, or loss of bloom. These laboratory experiments were put to the test in commercial conditions by actual shipment of chilled beef from London to Canada, and proved eminently successful.

Large Crowd Pay Last Respects to 'Jack' Revie

A crowd which filled Forbes Presbyterian Church, Grande Prairie, on Sunday afternoon paid their last respects to the body of Mr. James Revie, who passed away suddenly at Dismal on October 20.

Not a relative of the deceased in the country, the large attendance was a splendid tribute to the man who came here a stranger a few years ago, by his square dealing and high ideals of "life" Revie bore the respect of all whom he came in contact with.

As a grain man he was considered among the best in the West and the large representation of grain buyers from Grande Prairie and surrounding towns reflected the high esteem in which Revie was held by his brother grain buyers.

Rev. A. J. Waterman of the Baptist Church, who conducted the service in the absence of Rev. E. A. Wright, took for his text the 100 verse of the 90th Psalm: "The days of our years are three score years and ten; and if we fly away."

Mr. Waterman at the outset of his impressive remarks said when a man is young and looking ahead, life seems a long time, but as the years of life seemed very short.

Speaking of the speaker observed that people as a rule seem to think that it is for someone else but for them.

Continuing, Mr. Waterman said that the two great facts of existence are life and death and that mystery presses in on every side; that one of the most difficult things in life is to come face to face with ourselves.

The speaker said that many of those in attendance to turn out and pay their last respects to one who was a comparative stranger in this town.

In closing, Mr. Waterman referred to the consolation which comes to those who believe in Christ.

Mrs. Vera Grant accompanied at the organ during the singing of the hymns chosen especially for the occasion.

The following were the pall bearers: Harry Black, Tom Waterman, Alf Brown, Alex. Macdonald, Norman Leslie, W. Peat.

Burial took place in the Grande Prairie cemetery. J. B. Oliver had charge of the funeral.

Japs Offering Keen Competition In the Orient

George Hutten-Potts, who spent Tuesday between trains at Grande Prairie, during which he was married to the local Japanese, had some very pointed things to say about the competition which Japan is offering in the Orient.

The visitor, who has lived in China for about forty-five years and who has business connections at Hongkong and Shanghai as well as in England, in discussing conditions in the Orient said that Japan, and the United States, had built a large cement factory near Shanghai at a cost of several millions and were selling the product at \$2.14 a hundred.

Along came the Japs and came selling the product at \$2.14 a hundred. The result was that Mr. Hutten-Potts, that the Empire plant in Shanghai was a loss.

Asked how conditions were in China, the visitor replied that they were bad. The trouble, he said, was that there was too much strife among the various provinces, with the result that it interfered with stabilization. This condition, he said, has resulted in the Japs' plan to conquer.

Mr. Hutten-Potts told on Tuesday night's talk for Vancouver on route to China.

CATHOLIC BAZAAR ATTRACTS LARGE ATTENDANCE (Continued from Page One)

put forth in putting on the splendid event. "The matter of raising church funds," he observed, "is always difficult, and especially so during these trying times. Churches are doing their share in relief work, which adds to the difficulty of raising funds."

One of the finest I have ever seen and a credit to those responsible for it. The speaker said that the bazaar was a thing he had enjoyed and many of the things he had seen.

Standing at their posts of duty were Mrs. McNeil and Mrs. Hickman in the Novelty Store, Misses Evelyn Han and Margaret Murray, assisted by Claude Fitzpatrick and Billy Barry, in the Mystery Chinese Laundry; in the Novelty Store were Mrs. Han and Mrs. Chaudhry; in the General Store, Mrs. Croken and Mrs. Spier; in the Children's Handwork Store, the High School girls were in charge; and at the southeast corner of Main Street, Mrs. Mayra tended a beautiful garden.

The Handwork Store was in charge of the school children. These three places of sale were beautifully decorated in harmony with the general plan, and Mrs. Conroy's Garden was a beautiful sight.

MANY RESOLUTIONS BEARING ON CONDITIONS IMPOSED BY U. F. A. FALL CONVENTION (Continued from Page One)

"The alternative," he said, "is to try and persuade the owners to pay a fixed portion of them. The speaker added Mr. Allen, gives the farmer or the mortgage company a right to pay on a five-year installment plan. So far as the mortgage company is concerned, the same as New Zealand has adopted its monetary policy, which is a good one, and gives it \$125 per bushel.

He added: The U. F. A. favors a government marketing board for farm produce, but if one dollar was paid for bushels of wheat, the farmer would be unable to do that for himself, then the government of Canada must do that for him in order not only to save the farmer but to have some goods depending on him. Balance and equity in our national life is necessary in order to salvage the people from the present disaster."

Continuing, Mr. Macklin continued that the price of farm products must be restored to the level of those things which have not slumped to the same extent as those things which have. He stated that the matter of the U. F. A. has stood for several years.

Mr. Macklin stated that it was wrong to state that nothing had been done. He observed that the U. F. A. has done a great deal in Italy and also to the baring tests made in Britain.

Mr. Macklin said that the Premier had signed an agreement by which British farmers would receive a number of wheat annually, no more so, but it did not matter how much the wheat was sold for. It would not increase the sale.

The speaker said that it is necessary to create a condition under which people can buy flour. William Allen agreed with this statement. He pointed out that Switzerland was being forced to pay for wheat. He said that in other parts of the world were too poor to buy Swiss wheat.

Mr. Allen, in speaking to the question, said that while the U. F. A. had advocated the principle of the U. F. A. has stood for several years.

behind tariff wall protection. Organized growers in Canada said the price of their labor, but the farmer's income has not been so. Mr. Macklin pointed out that the price of wheat domestically consumed can be set at a minimum by the government.
